"Connect Teaching with Learning"

 **Powered Learning**
www.poweredlearning.in

WHY POWERED LEARNING?

- Lessons Pre-mapped as per respective syllabuses
- Lessons designed based on Brain based learning Methodologies.
- Easy to use tools
- Fully Animated Lessons – with navigational tools
- Integrated Features – Points to remember, Test your knowledge, Question Bank, concept Maps and Topical Dictionary
- Global applications integrated, teacher can explore the lesson as per need.
- Teacher's guide – Art of Teaching in 21st Century.

Computer Aided Teaching (CAT)

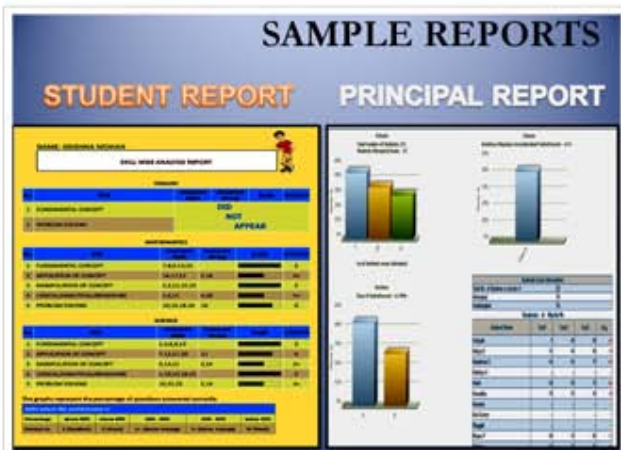

The Powered Learning CAT module empowers the teacher with digital tools to present his or her lessons creatively. CAT module has multimedia 2D/3D lessons mapped to the State board/CBSE/ICSE curriculum.

CAT Module helps teacher engage the students in the classroom with more enthusiasm and open minds. Teacher can inspire the students to explore the lessons and challenge them to innovate using the knowledge they enquired.

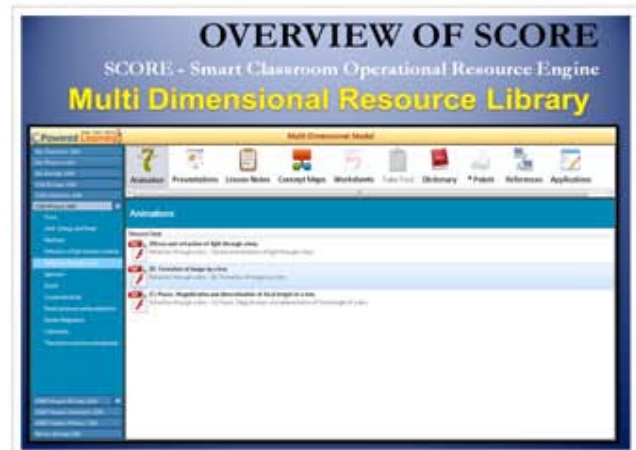

Benefits

- ▶ Empowers the teacher with digital tools
- ▶ Teachers get to use multiple resources in the classroom
- ▶ Flexibility for the teacher to use the content as per need
- ▶ Reduces the work stress on teachers
- ▶ Teachers teaching is connected to students learning
- ▶ Student's Participation in the classroom increases.
- ▶ Student's Performance levels increase.
- ▶ Student's Presentation skills improve.
- ▶ Student's imagination and thinking skills improve.
- ▶ Student's Conceptual knowledge improves.
- ▶ Over all Educational Standards Improve at school

POWERED LEARNING STUDENT DVD (LEARN @ HOME)

POWERED LEARNING gives schools teacher-focused multimedia content and in addition students get useful learning aids for home learning.

TEACHERS get curriculum specific multimedia content and supplement material to aid in their teaching. Based on cognitive learning skills, teachers can now engage and inspire the children with audio visual lessons in digital class environment.

STUDENTS get syllabus specific CD/DVD pack (For important topics suggested by teachers) for Math and Science. Students get content that they can review at their own pace at home on TV or computer and revise important concepts multiple times. Students benefit from cognitive learning with successful outcomes.

POWERED LEARNING 360°
